Subject Index, 1996

A

- Abdominal pain, nongynecological, adolescents and — 337
- Abscess, amebic liver — 155
- Acute demyelinating encephalomyelitis (ADEM) — 209
- Adenoma, pituitary, 535, 649
- Adolescents
 - and congenital radioulnar synostosis in — 215
 - isoniazid overdose, acute, in compliant — 213
 - and nongynecological abdominal pain — 337
 - recurrent hypoglycemia and obesity in — 157
 - screening of for family problems — 67
 - seasonal allergic rhinitis and antihistamine therapy in — 383
 - and STDs — 10
- Adrenal hyperplasia (CAH), congenital, thrombocytosis in — 267
- Adrenal insufficiency, after achalasia in Triple-A syndrome — 99
- Adverse reactions
 - to excipients in vitamin and mineral preparations — 443
 - to immunoglobulin therapy — 23
- Alagille's syndrome — 593
- Alkalosis, metabolic, and hydrochloric acid infusion for treatment of — 271
- Allergic rhinitis in adolescents, and antihistamine therapy in seasonal — 383
- Allergies, to casein hydrolysate formulas — 491
- Amebic liver abscess — 155
- Aminotransferase elevation, celiac disease presenting with — 653
- Antibiotic treatment regimens, for pneumonia — 629
- Anxieties
 - adolescents, and family situations — 67
 - parental, during child's lumbar puncture — 2
 - parents, about their children — 84

- Apnea, home monitoring of — 505
- Arteriohepatic dysplasia, treatment with ursodeoxycholic acid (UDCA) — 593
- Astrocytoma, spinal cord — 411
- Attention deficit hyperactivity disorder (ADHD), and persistent school dysfunction — 571
- Audiometry, select picture, in an office setting — 161
- Auricle, deformed, evaluation and treatment of — 461

B

- Bacteremia, relapsing, and penicillin-resistant pneumococci — 407
- Bed-wetting, daytime — 91
- Behavioral descriptors that differentiate between seizure and nonseizure events in epilepsy — 243
- Bezoar, associated with sucralfate, in premature infant — 423
- Blood transfusions, adolescent refusal of — 317
- Bone mineral density in children — 185
- Breastfeeding, and special properties of human milk — 283

C

- Cardiac rhabdomyoma, in tuberous sclerosis complex (TSC) — 615
- Cataracts, as presenting sign of diabetes insipidus — 37
- Celiac disease, presentation of with aminotransferase elevation — 653
- Central nervous system depression (CNS), after accidental ingestion of Visine eye drops — 539
- Cerebellar ataxia-multiple sclerosis — 209
- Cervical spine, pediatric, and SCIWORA — 119
- Chest pain, and slipping rib syndrome — 403
- Child abuse, nasal destruction due to — 165

- Child health supervision, and parents' expectations of — 129
- Child vulnerability, parental perception of, and health care utilization — 303
- Choleastomas, and mastoiditis — 391
- Chylous ascites, and gastroschisis — 415
- Clinical Laboratory Improvement Amendments (CLIA '88), effects of on physician office laboratory — 125
- Colitis, due to casein hydrolysate allergy — 491
- Congenital adrenal hyperplasia (CAH), thrombocytosis in — 267
- Congenital radioulnar synostosis in adolescent — 215
- Continuity of care, and attendance at well-child appointments — 563
- Cow milk protein allergies, and hypoallergenic formulas — 497
- Creatine kinase brain isoenzyme concentration, in cerebrospinal fluid with meningitis — 349
- Cultural diversity, in pediatrics — 327

D

- Decongestant-antihistamine treatment for acute sinusitis in children — 457
- Dermal injury, following use of fiberoptic phototherapy — 421
- Developmentally disabled children, esophagitis in — 451
- Diabetes insipidus
 - cataracts as presenting sign in — 37
 - nephrogenic, and intracranial calcification in — 34
- Diabetes mellitus
 - and accuracy of injection site identification among children — 191
 - gastrointestinal symptoms of, in children and adolescents — 343
- Diabetic ketoacidosis (DKA) — 261
- Dysphagia, as presentation sign of laryngeal neurofibroma, infantile — 151

Subject Index, 1996

E

- Enuresis, diurnal — 91
- Epilepsy, and behavior descriptors that differentiate between seizure and nonseizure events in — 243
- Esophagitis in children with developmental disabilities, ranitidine therapy for — 451

F

- Factor VIII continuous infusion, home management of in hemophilia A — 40
- Failure to thrive, and patient religious beliefs — 323
- Familial rapid maturation, 517, 535
- Febrile myoclonus — 331
- Fevers, outpatient, in pediatric heart transplant patients — 437
- FG syndrome — 365
- Fiberoptic phototherapy, dermal injury following use of — 421
- Fistula
 - rectovaginal, in sexually assaulted child — 369
 - tracheoesophageal, diagnosis of without esophageal atresia — 103
- Foreign body aspiration, diagnosis of in children — 591
- Formulas, lamb-meat-based, for infants allergic to casein hydrolysate — 491
- Fusarium solani* infection, and amphotericin B lipid complex treatment of leukemia — 257

G

- Gastrointestinal reflux disease (GERD) — 607
 - and esophagitis in developmentally disabled children — 451
- Gastrointestinal symptoms of diabetes mellitus, in children and adolescents — 343
- Gastroenteritis, acute, treatment of — 429
- Gastroschisis, and chylous ascites — 415

- Genetic disorders, and overgrowth, 515, 577, 635
- Gigantism, 515, 577, 635
- Gonococcal infection, diagnostic techniques for — 329
- Growth hormone deficiency, and hereditary multiple exotosis (HME) — 657

H

- Heart
 - block, traumatic, and presentation with myocardial injury — 47
 - transplants, and outpatient fevers in pediatric patients — 437
- Helicobacter pylori* disease in childhood — 175
- Hematochezia — 491
- Hemophilia A, home management of using Factor VIII continuous infusion — 40
- Hemorrhage, upper gastrointestinal, and Mallory-Weiss tear — 417
- Hereditary multiple exotosis (HME), and growth hormone deficiency — 657
- Hormonal causes of overgrowth, 515, 577, 635
- Hypercholesterolemia — 593
- Hypergammaglobulinemia, oligoclonal, and immunodeficiency — 43
- Hyperphosphatasemia, in leukemia and lymphoma — 501
- Hypoallergenic formulas, and cow milk protein allergies — 497
- Hypogammaglobulinemia and anti-IgA antibodies, in Kabuki make-up syndrome — 273
- Hypoglycemia, recurrent, and obesity in adolescent — 157
- Hypothyroidism, presenting as pituitary adenoma — 649

I

- Immunization status of children and parental health beliefs — 18
 - on school entry — 237
- Immunizations, and physicians' beliefs about — 79

- Immunodeficiency
 - and oligoclonal hypergammaglobulinemia — 43
 - and respiratory syncytial virus pneumonia as presenting sign of severe combined — 147

- Infant development, maternal assessment of — 621

- Infant Gastroesophageal Reflux Questionnaire (I-GERQ) — 607

Infections

- and *Helicobacter pylori* — 175
- and pleural effusion — 5
- staphylococcal skin, and addition of rifampin to cephalixin therapy — 205
- Inguinal hernia repair in premature infants, weight gain and timing for — 251
- Injection site identification, accuracy of, among children with diabetes mellitus — 191
- Internet, and the pediatrician — 229
- Intracranial calcification, in nephrogenic diabetes insipidus — 34
- Intracranial dermoid cyst, and recurrent *E. coli* meningitis — 32
- Intravenous immunoglobulin therapy, adverse effects of — 23
- Isoniazid overdose in a compliant adolescent patient — 213
- IVIG (intravenous immunoglobulin therapy) — 23

J

- Jaundice, neonatal, therapeutic approaches to — 309

K

- Kabuki make-up syndrome and acquired Hypogammaglobulinemia and anti-IgA antibodies — 273
- Ketoacidosis (DKA), diabetic — 261

L

- Laboratory testing, effects of CLIA '88 on physician office — 125
- Laryngeal neurofibroma, infantile, presenting as sturdier and Dysphagia — 151

Subject Index, 1996

Lead poisoning, longitudinal assessment for — 58

Leukemia

- and amphotericin B lipid complex treatment of *Fusarium solani* infection in — 257
- cuts, presenting as seborrhea dermatitis — 531
- Hyperphosphatasemia in lymphoma and — 501

Liver, amebic abscess of — 155

Lumbar puncture, parental anxieties during child's — 2

Lyme disease in children, environmental and life-style risk factors for — 359

Lymphoma, hyperphosphatasemia in leukemia and — 501

M

Mallory-Weiss tear, cough-induced — 417

Mastoditis, in children — 391

Meningomyelocele, parents' and pediatricians' views of — 113

Meningitis

- and creatine kinase brain isoenzyme concentration in cerebrospinal fluid — 349
- pneumococcal, long-term sequelae of — 72
- recurrent *E. coli*, and intracranial dermoid cyst — 32
- viral, and neurodevelopmental outcome of infants with — 295

Metabolic alkalosis, hydrochloric acid infusion for treatment of — 271

Metabolic screening via heel stick versus umbilical arterial catheter — 333

Milk, human, special properties of — 283

Mineral and vitamin preparations, sweeteners, dyes, and other excipients in — 443

Multiple sclerosis with onset at 35 months of age — 209

Myocardial injury, and presentation with traumatic heart block — 47

Myoclonus, febrile — 331

N

Nasal destruction, due to child abuse — 165

Neisseria gonorrhoeae, isolation of — 329

Neonatal jaundice, therapeutic approaches to — 309

Neonatal purpura fulminans, acquired — 373

Neurodevelopmental outcome of infants with viral meningitis — 295

Neurofibromatosis type 1 (NF1) laryngeal, presenting as stridor and dysphagia — 151
update and review — 545

News media, effect on parental anxieties about their children — 84

O

Obesity, 515, 577, 635
in adolescent, and recurrent hypoglycemia — 157

Ocular injury due to rooster attack — 219

Oral rehydration therapy, and acute gastroenteritis — 429

Osmotic demyelination syndrome, and pituitary apoplexy — 535

Overgrowth disorders, 515, 577, 635

Overnutrition. *See* obesity

P

Parents

- anxieties about their children — 84
- anxieties during child's lumbar puncture — 2
- and child health supervision — 129
- health beliefs, and children's immunization status — 18
- and parent-child relationship disorders, and health care utilization — 303
- views of meningomyelocele — 113

Patients

- education of, and accuracy of injection site identification among children with diabetes mellitus — 191
- religious beliefs, and failure to

thrive — 323
religious beliefs, and refusal of blood transfusions — 317

Penicillin-resistant pneumococci, and relapsing bacteremia — 407

Physicians

- beliefs about immunizations — 79
- views of meningomyelocele — 113

Pineal cysts, incidental, in prospectively ascertained normal cohort — 277

Pituitary

- adenoma, hypothyroidism presenting as — 649
- apoplexy, osmotic demyelination syndrome and — 535

Pleural fluid

- etiology of in children — 5
- significance of cholesterol and beta-2 microglobulin levels in — 353

Pneumococcal meningitis, long-term sequelae of — 72

Pneumonia

- antibiotic treatment regimens for — 629
- respiratory syncytial virus, as presenting sign of severe combined immunodeficiency disease — 147

Premature infants

- bezoar associated with sucralfate in — 423
- and dermal injury in after use of fiberoptic phototherapy — 421
- weight gain and timing for inguinal hernia repair in — 251

Puberty, delayed, cytogenetic and molecular diagnosis of — 63

Pulmonary irritation, due to ingestion of household bleach — 471

Purpura fulminans, acquired neonatal — 373

Pyomyositis — 397

Psychosocial problems, screening for during routine EPSDT examinations — 139

R

Radioulnar synostosis, congenital, in adolescent — 215

Subject Index, 1996

Ranitidine therapy, for esophagitis in children with developmental disabilities — 451

Renal disease, and tuberous sclerosis complex (TSC) — 483

Respiratory failure, outcome of — 199

Respiratory syncytial virus pneumonia, as presenting sign of severe combined immunodeficiency disease — 147

Risk factors, for Lyme disease in children — 359

Rooster attack, ocular injury due to — 219

S

SCIWORA (Spinal Cord Injury without Radiographic Abnormality) — 119

Screening

for bone mineral density in children — 185

for family problems of adolescents — 67

for gastrointestinal reflux disease (GERD) — 607

for lead poisoning — 58

metabolic, via heel stick *versus* umbilical arterial catheter — 333

for gynecological abdominal pain in adolescents — 337

for psychosocial problems during routine EPSDT examinations — 139

Seborrheic dermatitis, leukemia cutis presenting as — 531

Seizure and nonseizure events in epilepsy, behavioral descriptors that differentiate between — 243

Sexual abuse

rectovaginal fistula in — 369

vocal cord dysfunction associated with — 105

Sexual activities, noncoital, in adolescents — 10

Sinusitis, acute, and decongestant-antihistamine treatment in children — 457

Slipping rib syndrome, and chest pain — 403

Spinal cord

astrocytoma — 411

injury without radiographic abnormality — 119

Staphylococcal skin infections, and addition of rifampin to cephalexin therapy — 205

Stature, genetic tall, 515, 577, 635

STDs, and adolescents — 10

Stridor, as presentation sign of laryngeal neurofibroma, infantile — 151

Substance abuse during pregnancy, and maternal assessment of infant development — 621

Sucralfate, associated with bezoar in premature infant — 423

T

Thrombocytosis in congenital adrenal hyperplasia (CAH) — 267

Tourette's syndrome, and the school experience — 467

Tracheoesophageal fistula, diagnosis of without esophageal atresia — 103

Triple-A syndrome, and adrenal insufficiency after achalasia — 99
